EDUCATION

Cornell University, College of Engineering, Ithaca, NY **Dec. 2025**
B.S., Information Science, Systems, and Technology; Concentrations in Interactive Technology and User Experience

Relevant Courses: Advanced Topics in Computer Game Design; Interactive Web App Design; Human Computer Interaction; Visual Data Analytics for the Web; Introduction to Computer Game Design; Intermediate Design and Programming for the Web

PROJECTS

Le Goosery Store, *Advanced Topics in Computer Game Design* **Jan. 2025 - May 2025**
Design Lead Ithaca, NY

- Directed the game's visual identity and designed a cohesive UI system, ensuring intuitive player experience across menus and gameplay
- Created and iterated on low to high-fi prototypes in Figma based on user feedback, significantly improving usability during playtests
- Collaborated with 9 teammates to launch and present the mobile game to 475+ attendees at Cornell's 2025 GDIAC Showcase, earning the **"Most Polished"** award

Le Petit Raccoon, *Introduction to Computer Game Design* **Jan. 2024 - May 2024**
UI/UX Designer Ithaca, NY

- Designed and implemented the game's user interface in Figma, optimizing user flow and visual clarity for an engaging player experience
- Synthesized user feedback from bi-weekly playtests to guide iterative design improvements throughout development
- Collaborated with 7 teammates to build and present the game to 620 attendees at Cornell's 2024 GDIAC Showcase, which won the **"Most Innovative"** award

SueChef, *Human Computer Interaction* **Aug. 2023 - Dec. 2023**
Designer Ithaca, NY

- Designed an app concept in Figma to help indecisive college students plan meals with on-hand ingredients
- Conducted user interviews and storyboarded different use scenarios to uncover pain points and guide iterative design decisions
- Developed a high-fidelity Figma prototype with interactive recipe screens and a dish modification feature, improving task flow and customization

EXPERIENCE

Server-Side Web Development, Cornell University, *Teaching Assistant* **Aug. 2025 - Present**

- Provide detailed feedback on assignments to support students' learning and improve coding best practices
- Lead weekly recitations with a small group of students to review course materials
- Improve students' understanding of lecture materials through weekly office hours

DesignAI Group, Cornell University, *Summer Undergraduate Researcher* **Aug. 2025 - Sept. 2025**

- Conducted user studies and post-session interviews to investigate how people interact with an AI-powered stimulation
- Analyzed qualitative data and shared insights with the research team, which were later incorporated into the lab's research paper

Human-Computer Interaction Design, Cornell University, *Teaching Assistant* **Aug. 2024 - Dec. 2024**

- Supported course instruction for 30 students in weekly recitations to deepen understanding of UX principles and design methods
- Collaborated with 9 other Teaching Assistants to evaluate student assignments and deliver actionable feedback

SPECIALIZED SKILLS

Programming Languages: HTML, CSS, JavaScript

Tools: Figma

UX Methods: User interviews, Usability testing, Wireframing, Storyboarding, Prototyping
